SUBJECT: COUNTRY CLEARANCE GRANTED FOR NUCLEAR REGULATORY  
COMMISSION OFFICIALS ROBERT LEWIS AND WILLIAM RULAND -  
SEPTEMBER 28 - OCTOBER 7, 2006

REF: STATE 158284

¶1. Country clearance is granted for the September 28 -  
October 7, 2006 visit to the Netherlands of NRC officials  
Robert Lewis, Section Chief; and William Ruland, Deputy  
Director, Nuclear Material Safety and Safeguards, to site  
visit of Urenco facility and uranium hexafluoride (UF6)  
shipment operations in Almelo.

¶2. Embassy understands that no further assistance is  
required.

POST ACCESS:

¶3. Visitors who need unescorted access into secure areas of  
the Mission must provide proof of a clearance. If level of  
clearance was not provided in the original country clearance  
request it should be done by separate cable. The cable  
should include SSN, and the name of the agency granting the  
security clearance. Cables must include the ASEC Tag to  
ensure distribution to the RSO office.

COMPUTER and ELECTRONICS USAGE:

¶4. Inter-agency security standards prohibit the introduction  
or use of non-USG owned computer hardware and software at all  
USG diplomatic facilities. Cell phones, palm pilots, radios  
and other convenience electronics are prohibited in all  
secure areas of the Mission.

¶5. Travelers who anticipate having special needs in terms of  
either access or computer usage should contact the RSO office  
before arriving at post.

SECURITY ADVISORY:

¶6. Since July 9, 2004, the Dutch Government has implemented  
heightened security measures in response to concerns of  
terrorist activity. US citizens in The Netherlands are  
encouraged to monitor media reports, and are reminded to  
maintain a high level of vigilance and to take appropriate  
steps to increase their security awareness.

Tensions in The Netherlands are high, sparked by the November  
2, 2004 murder of a Dutch film producer known for his  
outspoken criticism of Islam; and by the November 10, 2004  
raid on a home of suspected terrorists, which led to an  
all-day standoff and ended with the arrest of three  
individuals and non-fatal injuries to the suspects and the  
police. Subsequent arrests were made in connection to this  
raid and further investigation revealed that these suspects  
had ties to known terrorist groups. These events initiated a  
GoN-wide overhaul of its Counter-Terrorism measures,  
including providing more resources to combat violent Islamic  
radicalism. There have been a series of protests and arson  
attacks directed at mosques and Islamic schools in the

Netherlands, plus retaliatory actions against several churches. American citizens should bear in mind that even demonstrations intended to be peaceful can turn confrontational and possibly escalate into violence. American citizens are therefore urged to avoid the areas of demonstrations if possible, and to exercise caution if within the vicinity of any demonstrations.

The U.S. Government remains deeply concerned about the heightened possibility of terrorist attacks against U.S. citizens and interests abroad. As noted in the Department of State's Worldwide Caution of September 10, 2004, terrorists do not distinguish between official and civilian targets. Such targets may include facilities where U.S. citizens and other foreigners congregate or visit, including residential areas, clubs, restaurants, places of worship, schools, hotels and public areas. Terrorist actions may include, but are not limited to, suicide operations, assassination, hijackings, bombings or kidnappings. These may involve aviation and other transportation and maritime interests.

An area of concern for visitors to The Netherlands is crime. Most crimes against officials Americans are limited to pick-pocketing and purse and luggage theft. Theft from automobiles and hotel rooms are not unknown. Recently, theft of laptop computers has increased, especially at Schiphol Airport and major train stations.
